

Battle River Local Sponsored Ed Tech Workshops 2011/12 facilitated by Pat Bohnet

These sessions will be open to Battle River Local Teachers only as they will be filled internally.

September 28, 2011 – 4:30-7:30 pm – Camrose TBA – 50 Participants

“Digital Citizenship & Digital Copyright” – What do we as teachers need to consider and provide as role models to our students in the classroom? This workshop will provide an insight of necessary information to be aware of for 21st Century learning and working in an online environment. Media Awareness Network Resources will be used in the presentation.

October 5, 2011 – 4:30-7:30 pm – CCHS, Camrose – 25 participants

“Introduction to SMARTBoards for Elementary Teachers” – This workshop is designed to introduce the SMARTBoard, SMART Notebook Toolbar, Basic Content creation, SMART Gallery, and online created SMART Notebook lessons to participants. This workshop is designed for beginners to SMARTboard use.

October 26, 2011 – 4:30-7:30 – CCHS, Camrose – 25 participants

“Building an Online Classroom Space – Wiki or Edmodo” – This workshop is designed for a teacher to create an online classroom collaboration area. Using a Wiki or Edmodo will allow you to post resources for your students along with a discussion area for students! Parents love these areas to see what is happening in the classroom! Most useful for teachers in grade 6-12.

November 2, 2011 – 4:30-7:30 pm – CCHS, Camrose – 25 participants

“Introduction to SMARTBoards for Secondary Teachers” – This workshop is designed to introduce the SMARTBoard, SMART Notebook Toolbar, Basic Content creation, SMART Gallery, and online created SMART Notebook lessons to participants. This workshop is designed for beginners to SMARTboard use.

December 7, 2011 – 4:30-7:30 pm – CCHS, Camrose – 25 participants

“Intermediate SMARTBoard workshop” – This workshop is designed to provide 7 tools in content creation to make a lesson engaging! Templates will be provided along with a wide range of online interactive sites for SMARTBoard use. Workshop is for all teachers of any subject or grade level.

February 8, 2012 – 4:30-7:30 – CCHS, Camrose – 25 Participants

“Google Apps in the Classroom” – This workshop is designed to provide an introduction to Google Doc’s, Spreadsheet, Presentation, and Forms. See how the highly engaging online tool can allow your students to collaborate online anytime, anywhere! Google forms will also save you time in creating online assessments with the data automatically being entered into one area! Participants must have a gmail account set up prior to the workshop. Workshop is for all teachers of any subject or grade level.

March 21, 2012 – 4:30-7:30 – CCHS, Camrose – 25 Participants

“Presenting without Powerpoint!” – This workshop will show teachers how they can use online presentation tools like Prezi and Photostory3 to provide their own presentations or allow students to

use these online tools to do their own presentations! Workshop is for all teachers of any subject or grade level.

April 25, 2012 – 4:30-7:30 – CCHS, Camrose – 25 Participants

“Math & Science Gizmo’s in Grades 9-12” – LearnAlberta houses some very unique online interactive resources for Math & Science teachers. Math Gizmo’s have just been added to the LearnAlberta.ca website and contain amazing manipulative activities and experiments, along with teacher guides, student activities, and more! Participants should have set up an account at www.learnalberta.ca prior to the workshop.

May 2, 2012 – 4:30-7:30 – CCHS, Camrose – 25 Participants
